

All homes in Heron’s Landing have private wells which are under the restrictions of the St. Johns River Water Management District

Watering restrictions

The St. Johns River Water Management District’s watering restrictions are designed to ensure the efficient use of water for landscape irrigation. The restrictions allow enough water to maintain healthy landscapes year-round. The mandatory restrictions specify the time when watering may occur, the amount of water that may be applied, and the days when watering may occur for residential and nonresidential locations. These days depend on whether the address ends in an odd or even number, and on the time of year.
